

Known Food Allergies 20-21 SY

The Academy for Urban Scholar Youngstown (school) seeks to provide a safe environment for all its students. The School understands that food allergies present serious dangers to students and have become increasingly common. This policy seeks to reduce the likelihood of accidental exposure allergic reactions and to create a clear action plan should an allergic reaction occur.

Emergency Food Allergy Plan

An Emergency Food Allergy Plan (EFAP) shall be created for each student identified with any food allergy. The EFAP shall be developed by the student's parents, the student's physician/allergist, and the School nurse (or other appropriate designee of the School). A separate EFAP shall be completed for each known food allergy, and shall be completed prior to entry into the School or immediately after the diagnosis. Each EFAP must be reviewed on a yearly basis.

Each EFAP shall contain detailed information about preventative measure to avoid accidental exposure and emergency measures in case the student is exposed to the allergen.

The School shall share the student's EFAP with Staff members as appropriate.

With the consent of the student's parents (or with the consent of the student, if the student is over eighteen (18) years of age), the School may utilize the EFAP or the information contained therein in its efforts to educate and/or notify classmates and/or classmates parents of the student's food allergy.

School Responsibilities

The School shall:

- review and maintain all health records and EFAPs submitted by parents and doctors;
- review this policy and prevention plans with core staff members; and
- follow all state/federal laws regarding sharing medical information.

Student's Responsibilities

Students with known food allergies should take several steps to prevent allergic reactions. Students:

- should not trade food with others;
- should not eat anything with unknown ingredients; and
- identify an adult immediately if they eat something that may contain food to which they are allergic

Parental Responsibilities

The parents of each student with a known food allergy shall do each of the following:

- notify the Food Service Director of the known food allergy in writing at the beginning of each school year;
- execute an Emergency Medical Authorization Form;
- develop an Emergency Food Action Plan;
- provide the School with all medication(s) to be used in the case of an allergic reaction, along with the proper documents, Medication Request Form, or, if the student will carry and self-administer an EpiPen, shall submit a completed copy of Permission to Carry and Self-Administer Epinephrine Autoinjector form; and

□ work with the student in managing the students food allergy including reviewing the student’s responsibilities listed in this policy, reviewing the weekly lunch menu to identify appropriate foods, establishing a list of “safe foods” which do not contain the known allergen, and discussing the self-discipline that is required at School functions and other activities where food is being offered.
